FOR IMMEDIATE RELEASE

ROGERS GROUP INC. ANNOUNCES ASSET PURCHASE BY DAVE O'MARA CONTRACTOR INC.

Effective February 10, 2009, Rogers Group Inc. completed the sale of its central Indiana asphalt and construction assets to Dave O'Mara Contractor Inc., headquartered in North Vernon. Members of Rogers Group management will work closely with the Dave O'Mara team to insure that open projects are completed and commitments are met.

This move enhances Rogers Group's position in the crushed stone, sand and gravel and specialty products markets in central Indiana, where Rogers Group continues to be the premier aggregate supplier of choice for customers. Vice President of Business Development Steve Masie said, "This realignment will help us grow our core aggregate business to better serve the Indiana market."

Rogers Group is proud of its 100-year history in Indiana and plans continued growth in the state. The company has locations in Alabama, Arkansas, Indiana, Kentucky and Tennessee that provide crushed stone, sand and gravel, asphalt, concrete masonry, and construction and paving services.
